the regulation and

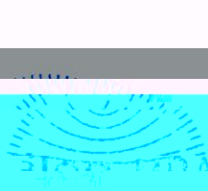

Attached table：

Applicable Parameters

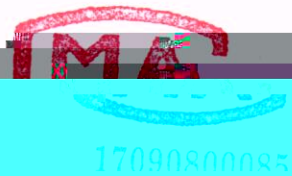

Working environment	Indoor/outdoors	Instalation position and quantity of self-monitoring element	Main control board	In the control cabinet	ation position
			Detector switch	On the brake	
Self-monitori	Verification of correct function of the mechanical means, § 6				
	TK2000-STB, TK3000-STB, BL2000-BHT, BL2000-BKT, FR-V51, EC-M01-V2, ECS-ED3000.V6, ECS-MC3000, ECS-MC2000, SANYO-C-01, SANYO-C2, SM6400, SECE3000A, ASIAELEVATOR SYS-H515, MP2000, EI-MB2 VER9, EA0211, EH[illegible]5000				
self-monitorin	ECS-BE3000-STB, ES2000-MC-V3, EMSO[illegible]000-STB, FUJI-EA0211,				

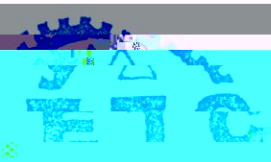

Attached table:

Self-monitoring mode	Verification of correct lifting or dropping of the mechanical means & Braking force test
Hardware composition	Main control board + Detector switch + Frequency converter+Encoder
	Main control board:MU-V61，BMU-V61，MU-V51，BL2000-STB，BL3000-STB，ER2000-STB，ER3000-STB，BL2000-BHT，BL2000-BKT，ER-V51，EC-M01-V2，ECS-MC3000，ECS-MC2000，SAM-S2

Product name : Unintended car movement protection system

SJTUETC

Varieties	Unintended car movement protection system	Classification	Life safety protection component
Product Model	BL-ZJC	Product name	Unintended car movement self-[illegible]
Date of manufacturing	/	Product number	/
		Covered scope	/
elight Automatic Technology Co., Ltd		Applicant	ShenYang Bl
oad, Hunnan New District, Shenyang, China		Registered address of applicant	No. 37 Shiji R
uelight Automatic Technology Co., Ltd		Manufacturer	ShenYang B
ii Road, Hunnan N		Registered address	No. 37 Sh
uangxin No 1 Road, Hunnan New District, Shenyang, China		Address of manufacturing	No. 99 Ch
uangxin No 1 Road, Hunnan New District, Shenyang,China		Test place	No. 99 Ch
Test Date	2018-08-14	Status of the sample lift (the sample)	Normal

Type Tests Report

1. The Configuration and Specifications of the Sample Lift (sample)

The main technical parameters and configuration sheet

Name	Unintended car movement self-monitoring subsystem	Model	BL-ZJC
Applicable working environment	Indoors	Applicable explosion-proof type	/

2	converter+Encoder	and the structure	Element	Quantity	Installation position
	Model of	Main control board:MU-V61 Frequency converter	installation position and	Main control	1	In the control

Hardware version	/	Software version	V0
Self-monitoring mode	Verification of correct lifting or dropping of the mechanical means & Braking force test		
Hardware composition	Main control board+ Detector switch+ Frequency converter+Encoder	Component monitored and the position and direction of self-monitoring element	Brake
Model of safety element	Detector switch: Z-5GD-B1 BL 6	Control board	Brake control cabinet
		Switch	Upside brake
			In
